Located within walking distance to the heart of downtown Red Bluff you will find this charming vintage home. The main home has been updated with granite counters in the kitchen and lvp flooring throughout. The main home is 3 bedrooms and 2 bathrooms and just over 1000 square feet. Out back you will find a deck area for barbecuing as well as raised beds for gardening. There is also a detached guest home with just over 300 square feet that has a kitchenette as well as a full bathroom with laundry hook ups and a private yard area. This would be ideal for multi generational living or a great rental.
